Dear Dr. Tobin:

Thank you for the workshops that you presented on Desire2Learn, Academic Integrity, Online Assessment, and Universal Design. Each presentation was informative, full of helpful ideas and insights, and inspiring. The Leadership Forum was an especially helpful session, allowing leaders and champions around the campus to ask questions and gain perspective from you and others.

Our faculty and administrators appreciated your entertaining and engaging style. They were happy to receive information on so many useful tools and tips, whether for increasing engagement with students, learning new ways to increase academic integrity, or learning how to assess online teaching.

For those of us who coordinated the two-day event, we appreciated your prompt responses, follow-up, and detailed pre-assessment of our campus culture and needs.

Attendees had this to say: "Awesome!" "Fabulous!" "Inspiring!" We agree. You were fantastic!

Sincerely,

Melanie N. Clay Ph.D., Executive Director of Extended Learning, Dean of USG eCore
Jason B. Huett Ph.D., Associate Dean of Online Development and USG eCore
Janet P. Gubbins, Director of Distance and Distributed Education/ UWG Online
