• I prefer a less jokey presentation. Time was lost on jokes, asides, & pop culture references.
• Important topic but very general and included much information that was not really new to me. I expected more specific information.
• Informative, engaging, useful.
• Information.
• Interesting information & entertaining.
• It was well organized. Would like some deeper theory discussed.
• John Tobin said we need a department to help us with lecture capture—so how do we get that?
• Lively and useful! Loved the Star Wars tie-in! Thought-provoking also—liked the idea of improved accessibility for everyone, not just those with documented disabilities. Also—the idea that the difference between struggling and succeeding students may be as little as 20 minutes a day. Thank you! I look forward to accessing the book.
• Loved the initial “Warning” slide—quite fun! The faculty have barriers, too, esp. lack of IT knowledge & support.
• Makes me feel more confident in going universal—feeling the Force!
• “Necessary.”
• Nice ideas. Our institution does not have strong technical resources. Please encourage a writing component to all assignments as our students need as much practice as possible.
• Nice introduction to UDL.
• “Outstanding.” Great job.
• Outstanding. I will use these techniques online & in traditional settings.
• Presentation was useful, entertaining, accessible.
• Speaker was entertaining & funny—thank you for choosing this topic & speaker! Nice work.

• Strongly agree to all 4 items.
• Style plus content very shallow.
• Syllabus presentation was a 5!
• Thank you! So engaging, and strategies given were immediately applicable!
• The keynote speaker was informative. Nice take aways.
• The presentation was appropriate length and stimulated my interest in the topic area. I liked the idea of scripting the videos ahead of time so students have a transcription of the video. I liked the idea of starting with the most difficult topics first for video taping.
• The presenter was good and gave some good information.
• This is good, and I bet it’ll taste better after the workshop sessions.
• This session enhanced my knowledge of what I’m doing currently.
