- 3 hours passed very quickly! Thank you!
- A great reminder—will look back at assignments to re-visit directions. We never got back to your question, “Why use Turnitin?”
- Amazing presenter, super topic. Thanks for letting us attend.
- Dynamic, great interaction. Working on the students “on the fence.”
- Energetic, informative, engaging.
- Excellent information and enjoyable interaction. Thought-provoking.
- Excellent. Informative. Reassuring.
- Good use of examples during the session. Took different disciplines into account. Good use of humor during session.
- I gained a lot of perspective on AI. I will implement too many of the ideas in my classes. Presenter was really nice.
- I learned a lot and I will apply it in my classes. Also, I have served in the Ac. Integrity Committee, and this talk really helps.
- I was impressed with how the presenter engaged us at a distance. That was totally unexpected. Thank you!
- Made me rethink how I handle AI.
- Really well done. Tobin is engaging and relatable. His simple explanations were spot on!
- Thank you for pointing out the non-faculty occasionally.
- This was a good refresher, as in Penn State these are in practice.
- This was very helpful! The only suggestion I could make would be to offer content-based breakout sessions to talk specifically about each field! Overall, a very useful seminar!
- Very good.
- Very helpful. Perhaps in the future we could examine real-life cases of how professors handled certain A.I. cases (to show us “best practices” for handling A.I. infractions).
- Very strong presentation. Eye-opening examples. Wished we had more time!
- Well-done presentation; first hour was a lot of audience-building, 2nd and 3rd more streamlined. Enjoyable—thanks!
- Well-planned, thoughtful.
