

Tobin, “Universal Design for Learning: Beyond Accessibility” Workshop

Participant Evaluation Results

Attendance: 47

Respondents: 26

1. This session’s information will be useful to me in my job.
2. The description matched what I experienced in the session.
3. The facilitator demonstrated good presentation skills.
4. Over all, this was a good session.

5. In a few words, share your over-all impression of this session.

- Best workshops (a.m. & p.m.) I’ve attended in a great while! Well worth the time.
- Excellent information and engaging speaker. Advise using higher contrast (not red) font in slide presentations—could not read from back of the room.
- Great examples of tools we should use on the online courses.
- Great presentation with good pace and information.
- I have a plan to fix my courses.
- One of the best workshops attended in a very long time. Thank you for having this. Excellent & useful information and take-away. Great presenter!!
- Seemed too broad without direct applications that would have been more helpful. Additional resources and/or handouts would be helpful. More content on slides would be helpful.
- Structure good . . . prep on Star Wars . . . before beginning.
- This session showed/educated me in the very many different ways I could reach-educate my students (and not just students with “accommodations”).
- This was truly an eye-opening experience for me in terms of giving students a choice of how they can demonstrate the learning objectives set for the course. Thank you—I am excited to incorporate UDL into my courses.
- Very good presenter.
- Very informative.
- Very informative. Well done!
