To whom it may concern,

We engaged Tom Tobin to provide two on-site workshops for our faculty this spring, on the topics of Universal Design and appropriate use of copyrighted materials. We found Tom very easy to work with, and the workshops to be of extraordinarily high quality. Our faculty responded very well and said that they found the workshops very useful. Several told us that they were putting information and techniques that they learned into practice immediately.

Prior to the workshop, Tom asked for the names of a few key faculty members so that he could reach out to them and get an idea about the topics that would be most valuable and relevant to our faculty. This extra work really paid off, as the workshops were closely targeted to our needs.

We endorse Tom without reservation, and would be happy to provide an endorsement to others who may be considering engaging Tom for similar events.
