   - Excellent presenter. Would like to hear or see (!) a list of possible platforms to use to provide alternate media.
   - Excellent. Ideas for attending faculty and education students. Thanks again!
   - Great strategies. Thank you for presenting, Tom! There were lots of great tips for easily implementing UDL practices.
   - I learned that UDL is “useless” because not everyone learns the same way. We should activate 3 brain networks, and make sure everyone has access.
   - I’m excited to get started! My only hesitation is reaching kids through technology (since I know it’s so engaging) when resources aren’t available. Technology is such a great way to create choices, but I will definitely be thinking of some non-tech choices as well! ☺ Thank you for everything!

   - Really cool. Learned a lot and was interested.
   - The best presentation I’ve seen thus far. Five strategies for UDL: start with text, make alternatives, do it your own way, go step by step, set content free.
   - This session really helped me to gain knowledge about different ways to both interact with and instruct my students. It definitely showed me a different perspective than the one I am used to.
   - This was extremely useful to know for my future career as a teacher. I like the idea of aiming for progress, not perfection.
   - This was great, live, and interesting to hear what we all should do to improve others’ ability. Thank you!
