Attendance: 28

Respondents: 22

1. The information shared in the series will be useful to me in my job.
2. The description matched what I experienced in the workshops.
3. The speaker demonstrated good presentation skills.
4. Over all, this was a good workshop series.

5. In a few words, share your over-all impression of these workshops.

- Dr. Tobin is a great presenter and I really appreciate the chance to learn from him. Thank you for arranging this!
- Excellent presentation.
- I didn't realize there wouldn't be a Q&A at the end.
- It would be helpful if there were more baseline learning materials available for UDL as it pertains to higher education—particularly in ebook format since many folks are working remotely currently. I'd like to read Dr. Tobin's book as a follow up to the session but can't make it to campus to pick it up from the library.
- Love the simplicity of +1. And loved the permission and encouragement to start, and start small.
- The session and discussion/comments encouraged me to consider (relatively) small/easy changes to content delivery, assignments, activities that would improve the course for all students. It also helped me identify current practices that already align with UDL principles (encouraging!).
- This was a great session. Thank you!
