Date: Monday, October 19, 2020, 10:00 AM EDT

Thomas,

The **EDUCAUSE 2020 Student Technology Report: Supporting the Whole Student** drops today!

We want to again thank you for your contributions to the report and give you the opportunity to share with others your work on this project as a Subject Matter Expert (SME). To that end, EDUCAUSE has prepared a [Student Study, Subject Matter Expert Toolkit](#) for you. Included in the document are the following: 1) an email template that you can copy/paste/edit to share with colleagues and others, 2) a social media post (of near-Twitter length) with suggested hashtags that you can copy/paste/edit, and 3) an email signature that you could include as part of your regular sign-off.

Please note that the report is not scheduled to drop until 0900 MT, so the links may not work until then.

Again, thank you for sharing with us and the rest of higher education your expertise!

Best,

Christopher
